

EKG/UA/Vital Signs

School: SoCal ROC
Course ID: 445
Availability: Call 310-224-4200

Short Description

Have you taken the Phlebotomy course or are you thinking about enrolling?

Description

This short course is designed for Phlebotomists to expand their technical skills to include training in recording a 12-lead resting electrocardiogram, taking vital signs consisting of temperature, pulse, respiration, and blood pressure and performing urinalysis using reagent strips. By acquiring additional skills, your job opportunities in the healthcare field could increase. This course fulfills the medical course prerequisite for Phlebotomy.
