

Medical Insurance Billing

School: SoCal ROC
Course ID: 440
Availability: Call 310-224-4200

Short Description

Are you a techie who is interested in the medical field and wants to make a lot of money? This is the course for you! Would you like to combine a love of computers and a lucrative medical career?

Description

This course prepares students to establish a medical billing service for medical facilities. Students will learn all phases of medical insurance billing, including coding, payments, and preparing practice management reports. This course meets the prerequisite requirement for Advanced Medical Coding.

Prerequisites

This course is open to high school seniors and adult students:

- High school student prerequisite: Completion of one medical course and have earned a C or better in English.
- If an adult, provide proof of a HIGH SCHOOL DIPLOMA or GED (translated into English).
- Adult students must purchase textbooks.
