STAFF REPORTS

Update on Building A Modernization

Superintendent Hoffman gave the Board an update on the Building A Modernization. Dr. Hoffman reported that the front section of Building A recently underwent demolition and that plumbing, HVAC, and electrical construction are currently underway. Construction to the medical and dental classrooms located on the second floor is targeted to be completed during late spring. Planning is currently underway for Phase 5 which consists of the new Career Center and hopefully this portion of the project will be completed by the start of the fall semester.

2009/2010 Annual Audit Report

Dr. Hoffman introduced P. Robert Wilkinson of the auditing firm: Wilkinson Hadley King & Co., LLP. Mr. Wilkinson reported that the SoCal ROC audit is similar to the school district audits as it is both a financial and compliance audit. Mr. Wilkinson noted that a new area was reviewed this year: post-employment benefits. Mr. Wilkinson concluded that SoCal ROC received a letter indicating an unqualified opinion, which is the best opinion that a school district can receive. Mr. Wilkinson also concluded that there were no findings noted in the audit.

Budget Update

Superintendent Hoffman provided an update on the State budget for 2010/2011 after attending the School Services workshop. The Governor's budget includes a special election in June whereby voters would be asked to extend existing taxes for an additional five years in order to spare education from severe cuts. The Governor's budget also includes additional deferrals for school districts. Dr. Hoffman reminded the Board that SoCal ROC's budget over the past three years has been cut 24%.
